CIRCLEVILLE, OHIO

Bids Close March 1, 1927

Every Lot Sold to the Highest
Bidder without Reserve

NOTICE

We have planting stock and cormels of most of the varieties listed in this Mail Auction Catalog. If interested, we would be pleased to quote prices.

Mail Auction of Gladiolus Bulbs

MAIL AUCTION OF GLADIOLUS BULBS

HAVING harvested the largest crop of gladiolus bulbs in the history of our organization, but having harvested them very late, by reason of very difficult weather conditions, we have decided not to issue a price list to the trade, but to auction off our surplus stock to the highest bidders.

The list of lots offered in this Mail Auction Catalog are all bulbs grown by us and we guarantee them to be true to name, up to size and absolutely healthy. The lots are so arranged that dealers who have oversold in some particular variety will not necessarily have to purchase from 250 to 1000 bulbs to get the 1000 rate; also there are a number of lots so catalogued in various sizes and cormels that a grower who wants to get a start of some particular variety may do so at small expense. We are enabling growers and dealers to buy bulbs at what they think is the right price.

HOW TO BID

When you receive your Mail Auction Catalog, place the highest amount you are willing to pay for any particular lot in the place provided for it in the catalog. After you have made your bids on the lots you desire, transfer to your bid sheet the number of each particular lot and the amount you have bid on it and mail the bid sheet to us, keeping your Mail Auction Catalog for reference and to check up on any lot you may be fortunate enough to buy at the auction.

All lots will be sold for cash to the highest bidder without reserve and all lots secured must be taken up and paid for at once upon notification. In case there should be two bids of equal amount received for the same lot, the bid first received will get this particular lot.

Here is a chance to buy what you need at your own price.

BIDS CLOSE MARCH 1st, 1927

At midnight March 1st, the auction will close and successful bidders will be notified at once of what lot or lots they have bought and the amount due. They will then forward to us the amount of their respective bids and upon receipt of the purchase price the bulbs will be packed at once. There will be no extra charge for packing.

GUIDE TO BIDDING

We have on file the wholesale price lists of thirty-five of the most prominent growers in this country and at a great amount of trouble, have compiled a guide to bidding by averaging up the various prices of these growers. These prices have been added and the result divided by the number thus giving the average price for any particular variety. For example, twenty growers list Halley. The prices vary from \$1.50 per 100 to \$4.00 per 100 for No. 1 bulbs; the average price for the twenty growers is \$2.05 per 100. Where the prices are given for hundreds of a given variety, the letter C is prefixed to the price, thus: C\$2.05.

Among the rarer varieties, there are a number priced by tens or dozens. Where this is the case, the prices will be by tens and prefixed by the letter X, thus: X\$2.05.

Where there are no wholesale prices on a variety, we will give the average retail price which will be prefixed by the letter R, thus R\$2.05.

The prices given are for No. 1 bulbs, and all lots where no size is specified are No. 1 bulbs.

PRICED COPIES OF THIS MAIL AUCTION

Those growers who like to keep abreast of the times regarding prices will be mailed a priced copy of this Auction Catalog with the prices realized from each lot, upon receipt of one dollar.
